

God's Plan - God has a wonderful plan for every person's life. His plan is that we love Him and love other people. This is how life was when he originally created everything.

Sin - But, because the first man and woman disobeyed God, we are now born into rebellion against God and His plan. The Bible calls this sin.

Brokenness - Sin leads our lives into a place of brokenness. We don't have to look far to see how broken our world really is. No one likes to stay in a place of brokenness. These squiggly arrows represent our attempts to fix brokenness. Some of these attempts are drugs and alcohol, relationships, success and money, or just being a good religious person. The problem is, none of these things fix the problem. Like a rubber band, they snap our lives back into brokenness. And in the end, we will all die because of our sin.

Turn & Believe - The only way out of our brokenness is to turn and believe in Jesus!

Jesus - Jesus is God's son, who came to earth 2000 years ago and lived a perfect sinless life. But in order to pay for our sin, Jesus allowed himself to be killed on a Roman Cross. This was God's plan. He was then buried, and on the 3rd day He rose from the grave! He told His disciples to go into all the world proclaiming this good news until there is No Place Left! Once everyone has heard the good news, Jesus will return to judge every person.

Follow, Restored & Forgiven - Jesus promised that if we follow Him as the King of our life, then we will be restored to God's plan, forgiven of all of our sin, and given eternal life!

Where are you at today? Will you turn, believe, and follow Jesus right now?
